REPORT OF SUPERINTENDENT OF SCHOOLS.

To the Superintending School Committee and Citizens of Eastbrook:

The apparently large overdraw in the common school account is entirely due to the unusually large tuition account—\$945—which is about \$550 more than the amount received from the State on this account. The prospects are that the cost will be at least as large the coming year, but it should not be considered a burden to assist these ambitious young people to secure the benefits which will make them better citizens and add to their happiness and prosperity.

A change which has been needed for a long time has been made in the geographies the past year. The subject matter is much more simple in the new books and the maps are up to date, in fact, they are more modern and practical in every way.

I trust the appropriation for this department will be somewhat increased this year. It is poor policy not to provide teachers with the necessary material for their work. A new floor in the Ridge schoolhouse is almost absolutely necessary if we are to continue the school there. I cannot at this time recommend a sum for the common school budget, as I am in communication with the State commissioner and hope to be able to give you some assurance at your town meeting of a substantial sum from the equalization fund.

Respectfully submitted,

S. S. SCAMMON,

Superintendent of Schools.

NURSING REPORT

To the citizens of the Town of Eastbrook, Maine:

The work in the schools has continued much the same as previous years, routine weighing and measuring, and inspections for physical defects and infectious diseases. Classroom inspections were made in the Mill grammar and Ridge primary schools twice during the year. On December 15 the annual inspection was made in the Mill grammar and January 3 in the Ridge primary school. The result follows: Pupils with defective vision, 2; defective hearing, 2; defective teeth, 21; abnormal throats, 8; nasal obstruction, 7; 10 per cent. or more underweight, 1; 20 per cent. or more overweight, 5.

Of the 28 pupils inspected, 27 were found to have defects; three were eligible to qualify for the Seven-Point pin and certificate. Since previous inspections there have been two corrections—one dental and one vision. Of the 21 having decayed teeth, 14 have temporary teeth decayed, while 12 have permanent teeth decayed, two needing prophylactic cleaning for tartar. Neglected decayed teeth ruin the health; poor health makes poor students. Six school follow-up visits were made to the homes in the interest of having defects corrected.

Visited a tuberculosis patient and assisted in making out an application for sanatorium treatment. This patient was later removed to another town, and later to the sanatorium for treatment.

The work of the Hancock County Health Service is financed through the sale of Christmas seals and by town appropriation. We express our thanks and appreciation to all interested in the service.

Respectfully submitted,

WINIFRED L. DUNPHY, R. N.,
Hancock County Health Nurse.

NURSING REPORT

I hereby submit a brief report of services rendered the town of Eastbrook February 1, 1938, to February 1, 1939.

The annual physical inspection was given the pupils of the Ridge primary school and the Mill grammar school and consisted of the usual routine weighing and measuring, the Snellen's test for vision, the whisper test for hearing, inspection of the teeth, throat, scalp, postural defects, personal cleanliness, sores, rashes and for symptoms of infectious diseases. The result:

Number of pupils with defective vision, 2; defective hearing, 1; decayed teeth, 19; abnormal throats, 6; obstruction in nose, 5; 10 per cent. or more underweight, 1; 20 per cent. or more overweight, 2.

Of the twenty-three pupils inspected, twenty-one were found to have defects and two were eligible to qualify for the Seven-Point certificates. Notification slips were sent to the homes stating the defects found in the individual pupils. Eighteen school follow-up visits were made in the interest of having defects corrected. One dental correction was secured.

Had an interview with the teachers regarding ways and means of having a dental reparative clinic for the two schools, as decayed teeth seems a real problem on account of the distance between the town and dentist.

The service, which the Hancock County Health Service gives to the towns of Hancock county, is financed through the sale of the Christmas Seals, and by the town appropriation. We express our sincere thanks to those who make this work possible.

Respectfully submitted,

WINIFRED L. DUNPHY, R. N.,
Hancock County Public Health Service.

REPORT OF SUPERINTENDENT

To the Superintending School Committee and Citizens of
Eastbrook:

Although our tuition bill has been large this year, the expenses have been kept within the appropriation and the overdraw slightly reduced. During the fall term the expenses were materially decreased. Circumstances enabled us to secure two fine teachers at a minimum salary, and a large reduction was made in transportation which would seem satisfactory as long as conditions remain as they are. It is needless for me to tell you that a school calendar of thirty-two weeks and eight grades will not fit pupils with limitations (and there are these in every town) for the high school.

I assume that you feel that you are doing about all you can financially, so that it is necessary that you should obtain the best teachers possible. Unless our tuition bill is larger, I hope we may be able to take care of the overdraft by raising the same amount as last year.

In conclusion, I wish to express my appreciation for the fine work and cooperation of the teachers and pupils, the helpful attitude of the school board and to all who have helped make the school year a success.

Respectfully submitted,

S. S. SCAMMON,
Superintendent of Schools.
